

**DuraStack® Pro DCL is now listed to UL1777**

DuraVent is happy to announce that the DCL model of DuraStack® Pro is now listed to UL 1777 for relining a masonry chimney.

The DCL DuraStack® Pro offers a large range of diameters to cover more applications.

Key highlights of the DCL model of DuraStack® Pro are:

- 5"-36" product offering.
- Available in either 316 or 304 stainless.
- Easier to install and a wider range of products available.
- Interchangeability within the DuraStack® Pro line allows for more flexibility and availability of parts.

For current pricing and availability, please call customer service at (800) 835-4429.
