The DuraTech All-Fuel Chimney System

With a Thermal Tech blanket insulation encased between dual walls, DuraTech offers the optimum in safety and performance. It keeps the outer wall of the chimney cool, while ensuring high flue gas temperatures for optimum draft performance.

The inner wall is 20% thicker than competitive chimneys for an extra margin of safety. No locking bands or mechanical fasteners required.

DuraTech’s sleek 1” wall design provides for easy installations through 16” on-center framing. For tight installations, a Reduced Clearance Square Ceiling Support Box is available (6” diameter DuraTech only).

Designed for normal, continuous operation at 1000° F flue gas temperatures, DuraTech is subjected to rigorous and stringent HT requirements of the UL standard, including one hour at 1400° F, plus three ten minute chimney fire tests at 2100° F.

DuraVent offers DuraTech in large diameters to vent large-scale residential fireplaces and building heating appliances.

Large diameter DuraTech chimney is tested and listed for continuous operation at 1000° F flue gas temperatures, one hour at 1400° F and ten-minutes at 1700° F, in accordance with the UL 103 test standard.

### Duratech Feature
- **5" Through 24" Diameter Selection**
  - Allows the installer the largest variety of diameters to fit into the existing flue opening or other property.
  - Allows the installer to choose the desired length of pipe that meets the needs of the installation.
- **Removable Top Plate and Spark Arrestor on termination cap.**
  - Allows for easier cleaning of the chimney without having to disconnect the unit.
- **Light Weight Construction**
  - Options for either Stainless Steel or Galvalume outer wall.
- **Option for either Stainless Steel or Galvalume Outer Wall**
  - Allows the installer to choose the appropriate option for their installation.
- **5" Through 24" Available**
  - Provides a variety of diameters to choose from.

### Selkirk/Metalbestos UltraTemp (Platinum)
- **6" To 24" Diameter Available**
- **50" Pipe Lengths Available Lengths of 48"**
  - Allows for various lengths of pipe to be used.
- **Twist Lock Ends**
  - Allows the installer to quickly and easily connect the chimney sections together without the need for mechanical fasteners.
- **Square Support Box not offered in 5".**
  - A separate support box is required for 5" diameters.
- **Square Support Box offered and stocked as a separate SKU.**
  - Provides a separate support box to be used.
- **Limited Lifetime Warranty with 100% for first 10 years; 75% for 11-15 years and over 50% off for 15 years and over.**
  - Offers a lifetime warranty with decreasing percentages for years beyond 15.
- **Removeable Top Plate and Spark Arrestor on termination cap.**
  - Allows for easier cleaning of the chimney without having to disconnect the unit.

### ICC/Excel
- **8" To 48" Pipe Length Available**
- **5" Through 48" Available**
- **10" To 60" Available**
  - Provides a variety of lengths to choose from.

### Olympia/Vents
- **6" To 16" Available**
- **7" Through 24" Available**
- **30" Available**
  - Provides a variety of diameters to choose from.

### MetalFab
- **SuperPro/Amertivent Hardware Cooley**
- **5" Through 14" Available**
- **Limited Lifetime Warranty with 100% for first 10 years; 50% for 11-15 years and over 50% off for 15 years and over.**
  - Offers a lifetime warranty with decreasing percentages for years beyond 15.
- **Removeable Top Plate and Spark Arrestor on termination cap.**
  - Allows for easier cleaning of the chimney without having to disconnect the unit.
- **Removable Top Plate and Spark Arrestor on termination cap.**

### Factory Installed Starter Section in the Support Box
- **Starter Section is not installed. Support box**
  - Provides a support box that is not factory installed.
- **Factory Installed Starter Section in support box.**
  - Provides a support box that is factory installed.
- **300 series SS expands twice as much as 400 with less complexity to the installation.**
  - Provides a support box that is factory installed.

### DuraTech
- **Offers 2 support boxes available. 12", 24" along with flat and round support.**
  - Provides a variety of support boxes to choose from.
- **Light Weight Construction**
  - Options for either Stainless Steel or Galvalume outer wall.
- **5" Through 24" Available**
  - Provides a variety of diameters to choose from.

### DuraTech Feature
- **21" Double Wall Insulated Pipe**
  - Provides a double wall insulated pipe for added insulation.
- **Attic insulation shield is fixed height of 11.5".**
  - Provides a fixed height attic insulation shield.
- **Attic insulation shield is fixed height of 11.5".**
  - Provides a fixed height attic insulation shield.
- **Removable Top Plate and Spark Arrestor on termination cap.**
  - Allows for easier cleaning of the chimney without having to disconnect the unit.
- **Removable Top Plate and Spark Arrestor on termination cap.**
  - Allows for easier cleaning of the chimney without having to disconnect the unit.
