Subject: Polypropylene Vent Material  

Polypropylene vent certified to ULC S636 can be used in the following Camus products. 

- Camus DynaForce series  
- Camus DynaMax series  
- Camus Tank Heater series  

This material has a maximum temperature tolerance of 230°F and ranges in size from 2” to 12”. With the use of a correctly sized vent adapter certain Camus appliances can be vented with this material. Do not in any circumstance vary the venting material from the back of the appliance to the vent termination.  

Sincerely,  

Kevin Choi
