

VENTINOX[®]

RELINING FOR FLEXIBLE, SEAMLESS, RELIABLE PERFORMANCE

The only continuous welded, precision engineered spiral corrugated flex on the market. Ventinox is a one-piece seamless flue impervious to flue gases and dangerous condensates. Lightweight, yet tough and flexible. Ventinox can be ovalized to fit most any chimney chase. Ventinox system components feature an integrated mechanical locking band that zips onto the liner with only a nut driver. No need to drill holes into the liner. Backed by a lifetime warranty.
