

# DIRECT VENT PRO®

FOR DIRECT VENT GAS OR PROPANE STOVES, HEATERS & FIREPLACES

Stunning design and engineered excellence in manufacture, DirectVent Pro combines style with performance. Featuring precision tolerances for a tight seal, low-profile locks with no hems or beads for an elegant profile. No gaskets or sealants required (unless by appliance manufacturer). Laser-welded outer seams on all black pipe for a slim finish. Several termination choices to cap off the system perfectly. See why it is specified exclusively by nearly every major stove and fireplace manufacturer in the U.S and Canada. DirectVent Pro is backed by a limited lifetime warranty.
