

M&G DuraVent

*Power of Engineering
Powerful Solutions
Powerful Connections*

DuraVent is the leading chimney and vent manufacturer in North America, offering complete venting solutions to the industry.

DuraVent excels in technology, research & development and continuous product improvement. New innovations are brought to the market regularly.

Since venting is our only business, turn to DuraVent's highly skilled experts to develop components to OEM specs, from custom design and prototyping to testing vent systems to the demands of specific appliances.

See how the power of DuraVent can make all the difference in the world for your business.
