

# RELINING

DURALINER®, VENTINOX®, DURAFLEX®

What masonry chimney installers need most: Strong, safe, high-performance liners that reduce installation time. DuraVent has it covered - with a product for every need; from Ventinox super-ferritic flex liners to DuraFlex Pro, SW, 316 and 304 flexible liners & components, plus everything needed to insulate with TherMix & ProFoil. And standing in front remains DuraLiner, the only factory insulated, double-wall system with zero/zero clearance for high heat wood-burning appliances on the market.
