

# PERFORMANCE INSIDE DESIGN FLEXIBILITY OUTSIDE

**Innovative DirectVent Pro termination with a dramatically reduced wall footprint and enhanced aesthetic appeal.**

The termination will allow interchangeable and customizable shrouds, allowing customers to tailor the look of the termination. Shrouds will be available in a variety of materials.

The heart of the termination is a patent pending combustion air control. This control reduces the need for internal appliance baffling, and allows for improved combustion performance across a variety of gas burning direct vent appliances. Check with appliance manufacturer for approval.
